WHO MAY PARTICIPATE

- Qualified beauty professionals using safe professional tools and materials.
- Entrants from any country: the entire event takes place online.
- You may enter several nominations; register each work separately.
- A judge in one sector or nomination may compete in another if no conflict of interest exists.

- Confirm the fee and pay using an approved method.
- Receive the submission instructions and access to the participant group.
- Complete your work and send all files by 1 February 2027.

Judging is anonymous. Competition photographs and videos must not show names, studio logos, Instagram handles or information identifying the artist.

SECTION 02

Authorship & fair judging

ORIGINAL WORK & ETHICS

- Submit your own work only. Purchased work, third-party photos and false attribution are prohibited.
- Take competition photos and videos specially for this event. Do not publish the work before the final.
- No beauty filters, skin smoothing, recoloring, retouching, AI-generated or AI-enhanced images, collages or BEFORE/AFTER montages.
- Submit original photos and videos without watermarks, captions or digital additions.
- Use clean equipment, permitted materials and safe techniques; the model’s welfare takes priority.
- Do not show certificates, awards, advertising or identifying branding.

PROHIBITED THEMES

- War propaganda, political campaigning, religious propaganda, violence, discrimination, nudity and explicit sexual imagery are not permitted.
- Obtain the model’s consent to photography and possible publication after the final.

GROUNDS FOR DISQUALIFICATION

- Missing required BEFORE/AFTER photos or video.
- Proven plagiarism, altered images or false experience category.
- Failure to meet nomination requirements, preventing fair assessment.
- Deliberately concealed major defects or substantial breach of rules.

Organizers may request original files or explanations. Disputes are reviewed by the organizing committee; professional judges’ assessments are final.

SECTION 03

PHOTO & VIDEO REQUIREMENTS

- Use natural or even studio light, a neutral background and high resolution.
- Keep the nails, cuticle, sidewalls and free edge sharp and unobstructed.
- Shoot BEFORE prior to treatment; for tips show blank tips or the starting stage.
- AFTER photos must show the same work from above/front, side, free edge or underside and close-up details as required.
- Record an uninterrupted 15–30 second video, gently showing several angles, with no filters; tips and fantasy work also need genuine process footage.
- Submit at least 5 clear photos of the same work from different angles. Add more images when necessary.

Deadline: 1 February 2027. Send files early to allow time for technical issues.

SECTION 04

Judging & awards

HOW SCORING WORKS

- Judging runs from 5 to 20 February 2027; judges choose any convenient day during this period.
- Works are assessed anonymously in a multilingual online system.
- Each criterion is scored from 0 to 10 points; 10 denotes an exemplary professional result.
- Criterion scores are added, and a percentage permits comparisons across nominations with different criteria counts.
- Penalties of up to 10 points may apply where specified; serious breaches may cause disqualification.

PRIZE PLACES

- 1st place — highest qualifying score in the experience category / nomination.
- 2nd place — next highest score.
- 3rd place — third highest score.
- The committee may adjust the awards scheme if too few eligible works are received. Registration does not guarantee a placing.

NAILS GRAND PRIX

- Available to artists entering at least three different NAILS nominations.
- The ranking uses the average percentage score of the three best valid entries.
- On a tie, judges review technical quality and rule compliance.

RECOGNITION & AWARDS

- Each accepted participant receives a digital participation certificate.
- Winners receive official digital recognition; trophies and delivery depend on the selected package and organizer terms.
- Results and selected winning works may be published through official championship channels after the final.

Participation costs €50 per nomination. Payment, trophies and shipping terms are confirmed at registration.

- Can judges see nail architecture, cuticle, sidewalls and finish?
- Do BEFORE and AFTER show the very same work?
- Would photos accurately reflect an in-person assessment?

Tip: keep the camera steady, focus on the nail plate and move the hand or model rather than using digital enhancement.
